DETAILED ACTION

Election/Restrictions

1. Claims 33 - 38 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 39 - 52, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on June 18, 2009 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Art Unit: 1788

Authorization for this examiner's amendment was given in a telephone interview with Harold C. Knecht on February 16, 2011.

The application has been amended as follows:

In claim 50, line 13, after "and", please insert --the release material is bonded so as to contact and follow the pattern formed into the structure release surface of the paper--.

In claim 50, lines 14 - 18, containing "wherein a structural support layer ... in one piece" have been deleted.

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record fails to teach or suggest the recited structured paper release liner, method of an assembly and method of making a structured paper release liner. The independent claims identify the uniquely distinct features of a substrate that include a paper with a release side free of structural support layer, wherein a structural support layer is defined as a continuous plastic layer that is capable of having a structured pattern plastically formed therein, where the pattern is either completely contained within the layer of plastic or the plastic layer is thin enough that the pattern is at least partially formed in the paper core as well as the layer of plastic, and the layer of plastic could be separated from, or produced separately from, the paper core in one piece, having a patterned formed into the surface of the paper which deforms the fibers of the paper allowing the release material to follow the pattern in order to provide fluid

egress channels in the adhesive layer attached to the surface of the release liner. The closest prior art of record, Gray, III (USPN 4,435,461) in view of Mikami et al. (USPN 6,524,675) disclose different release liners, which either singularly or in combination fail to anticipate or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to PATRICIA L. NORDMEYER whose telephone number is (571)272-1496. The examiner can normally be reached on Mon.-Fri. from 10:00-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David R. Sample can be reached on (571) 272-1376. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
